

OzoSi Black Car

STERILIZED HYGIENE
Patented System

OZOSi Black Car is an innovative system for guaranteeing the microbiological safety of spaces and surface. It is ideal for eliminating bacteria, fungi, moulds, and viruses (for example Legionnaires' disease) and to sanitize air in both public and private interiors.

The machine is equipped with a control systems for guaranteeing a secure operation, and completely conforms with current regulations (ref. ACGIH limits).

Easy to use via the frontal control panel with two commands and timers

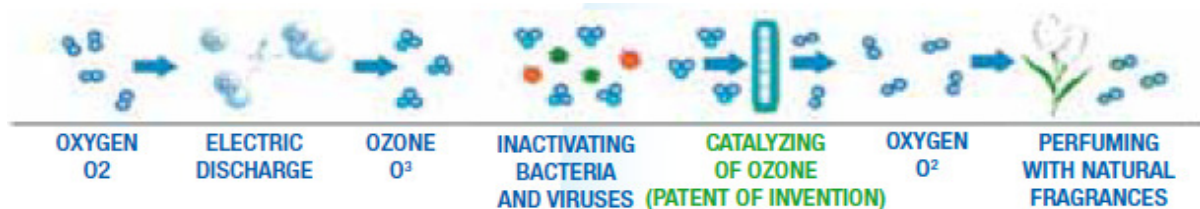

Programming allows a complete environment's treatment in absence of people:

- Ozone production via Corona Discharge.
- Ozone catalysis (Oxygen reversion).
- Perfuming with natural fragrances

Black Car can be fixed on a wall or putted on a flat surface.

BLACK CAR is manageable and compact, it is easy to move wherever it is needed.

It is ideal for small environments like Houses, restaurants, Medical Studios, offices, dentist studios, hotel rooms

ADVANTAGES AND BENEFITS USING HYGENE OZOSi Black Car

OZOSi Black Car provides several important benefits:

- Reduces emissions of injurious substances into the room;
- Replaces chemical substances used for disinfection;
- Reduces labor needs for disinfection of work environments;
- Greater security for operators carrying out the treatments, as the process can take place in the absence of personnel (substitution and/or diminution of products dangerous for human health);
- Easier to meet the legal requirements for hygiene and microbiology;
- Saves on costs for disinfection, both on products and man-hours;
- Disinfection of surfaces and ceiling areas which are hard to reach using other systems;
- Guarantees the inactivation of bacteria, mildews and yeasts from surfaces and spaces that are difficult to reach;
- Removes serious odors

TECHNICAL SPECIFICATION

Dimension	240x220x100mm
Weight	3.5 kg
Structure	Stainless steel
Voltage	220 V / 50 Hz
Power	30W
Effective max space m ³	15m ³
Certification	CE
O3 Production	Yes
Catalyst O3	Yes
Programming	Touch Screen
